ANTI-FUNGAL ADDITIVE FOR SEALING MORTARS

Additive for sealing and filling mortars. Improves the workability of the mix and facilitates its application. Increases adhesion and water resistance. Suitable for sealing mortars and joints that require fungicidal and algicidal properties, preventing stains and the formation of mold.

APPLICATIONS

Sealing and grouting mortars for swimming pools

Joints in kitchens, bathrooms, and floors

FEATURES

- 01 Increases adhesion and water resistance
- 02 More plastic mortars
- 03 Prevents the formation of mold
- 04 Fungicidal and algicidal properties

DIRECTIONS FOR USE

The product replaces the mixing water and is mixed directly with the mortar. Mix well until a homogeneous mass is achieved.

TECHNICAL DATA

Appearance	Opaque liquid
Color	White
Density	1.00 ± 0.01
pH	8 ± 1
Active substance	7.3 %

PRODUCT DATA

COVERAGE

Floor joints: 7 L / 25 kg of mortar.

Wall joints: 6 L / 25 kg of mortar.

Indicative doses according to the cement used.

SAFETY

Do not ingest. Industrial product for professional use.

S2 Keep out of the reach of children.

NOTES

In case of accidental ingestion, call the Toxicological Information Service: 915 62 04 20.
