

PUTTIES, SEALANTS AND JOINTS

# Juntanet

## SINGLE-COMPONENT POLYURETHANE SEALANT

High-quality polyurethane sealant for permanent elastic sealing of joints. Applicable both indoors and outdoors and even in permanent immersion in water.

### APPLICATIONS

Sealing of joints

Sealing of prefabricated concrete elements

Permanent immersion in water

Metal carpentry, PVC, and zinc

### FEATURES

- 01 Great elasticity (up to 25%)
- 02 Very good resistance to weathering and aging
- 03 Does not harden over time between  $-30\text{ }^{\circ}\text{C}$  and  $+80\text{ }^{\circ}\text{C}$

### DIRECTIONS FOR USE

The substrate must be clean, firm, and dry. Tape the edges to avoid staining. Fill the bottom with a closed-cell material (Pontex) so that the sealant adheres only to the sides, as it should only work on two faces.

### PRODUCT DATA

#### COVERAGE

Indicative yields: a joint of  $1 \times 1\text{ cm}$  gives approximately 3 ml per tube.

### SAFETY

Do not ingest.

**S2** Keep out of the reach of children.

**S24/25** Avoid contact with skin and eyes.
